Welcome to the first Semester of Master Courses Elektrotechnik & Informationstechnik (ETIT)

We will start soon!
Agenda

- Welcome (Head of MPA Committee, Prof. Dr.-Ing. Eric Sax)

- Organisational summary

- Challenges, questions, answers (Fachschaft, Team)

- Further discussion
Masterprüfungsausschuss (MPA)
Master Examination Board

Chairman:
- Prof. Dr.-Ing. Eric Sax
  Head of the Institute for Information Processing Technology (ITIV)
  (Contact via MPA Info Office)

Program Service Master:
- Frau Gisela Schlüter
- Frau Eva Kästle
Corona-Situation

Course of Study Summer Semester

- According to the Corona Ordinance on Study Operations, which has been in force since March 19, 2022, the summer semester 2022 at KIT will be a face-to-face semester.

- From the summer semester 2022, KIT will also again apply to the lecture times customary before the corona pandemic, each with a 15-minute break between courses.
Your „Study Programme“

- Choice of (currently) 24 Fields of Specializations
  - Decision during studies
  - Consult adviser of the Specializations in your first semester
  - [https://www.etit.kit.edu/beratung.php](https://www.etit.kit.edu/beratung.php)

- Modulehandbook, individual study plans und list of all advisers of the Specializations on the homepage
  - [https://www.etit.kit.edu/master_etit.php](https://www.etit.kit.edu/master_etit.php)
## 24 Specializations

### Vertiefungsrichtung | Sprache
--- | ---
1 | Signalverarbeitung Deutsch
2 | Biomedizinische Technik Deutsch
3 | Elektromobilität Deutsch
4 | Regelungs- und Steuerungstechnik Deutsch
5 | Elektrische Antriebe und LeistungsElektronik Deutsch
6 | Adaptronik Deutsch
7 | Information und Automation Deutsch
8 | Elektroenergiesysteme und Hochspannungstechnik Deutsch
9 | Optische Technologien Deutsch
10 | Hochfrequenztechnik Deutsch
11 | Photonics Englisch
12 | Systems Engineering Deutsch
13 | Nachrichtensysteme Deutsch
14 | Mikro- und Nanoelektronik Deutsch
15 | Kommunikationstechnik Deutsch
16 | Information and Communication Englisch
17 | Regenerative Energien Deutsch
18 | Ausrüstungssysteme der Luft- und Raumfahrt Deutsch
19 | System-on-Chip Deutsch
20 | Mikro-, Nano-, Optoelektronik Deutsch
21 | Elektrische Energiesysteme und Energiewirtschaft Deutsch
22 | Electrical Power Systems Englisch
23 | Sensorsysteme Deutsch
24 | Applied Superconductors Engineering Englisch

- Individual lectures and number of credit points
- Current description of the specializations in the module handbook
- 4 specializations can be studied entirely in English

Please contact your study advisor ASAP!
We kindly ask you to make an appointment.

Your Study Programme

- 120 Credit Points
  - 11 – 15 CP Basic Modules of Specialization
  - 28 – 43 CP Compulsory Modules of Specialization
  - 26 – 45 CP Elective Modules of Specialization
  - 6 CP Interdisciplinary Qualifications
  - 30 CP Master Thesis
  - (30 CP Additional Examinations, optional)

- Regular time of study 4 semester
- Maximum number of semesters: 7 (+ examination period)

In Summary
84 LP
Your Study Programme
84 credit points

in summary
84 LP

11 – 15 CP Basic Modules of Specialization
28 – 43 CP Compulsory Modules of Specialization
26 – 45 CP Elective Modules of Specialization
6 CP Interdisciplinary Qualifications
30 CP Master Thesis
Interdisciplinary Qualifications (6 CP)

- Subjects listed in the modulehandbook

- Subjects of the Language Centre
  - One course per semester free of charge
  - https://www.spz.kit.edu/

- Subjects of the HoC – House of Competence
  - https://studium.hoc.kit.edu/

- Services of the ZAK - Centre for Applied Cultural Studies and Studium Generale
  - https://www.zak.kit.edu/studium_generale_und_lehre.php
Service of the MPA

- Recognition of examination results in the Master's Programme
- Examination admissions for examinations outside the faculty
- Approval of the Individual Study Plans
- Admission to the Master Thesis
- Processing of all applications for study derogations (i.e. deadline extension, “Zweitwiederholungen”, etc.)
Important Deadlines:

- Recognition of examinations in the first semester after matriculation

- Second repetition ("Zweitwiederholungen") must be requested and approved by the MPA. As long as they are not approved, you have lost the right to take the exam and are not allowed to write exams at KIT.

*Check the Examination Regulations regarding deadlines*
FAQs: [https://www.etit.kit.edu/rd_download/FAQs_2022-03-29.pdf](https://www.etit.kit.edu/rd_download/FAQs_2022-03-29.pdf)

- I am not yet sure which specialization I should choose…..
  - You can find information about the individual specializations in the module handbook and make appointments with the relevant subject advisors

- Can I change the specialization during my studies?
  - Yes, find out in advance which modules you have already taken can be transferred to the new specialization and make an appointment with the subject advisor of the new specialization

- Can I choose any specialization or only English-language specializations?
  - You can choose any specialization, but make sure you can follow the lectures in German

- Which modules do I choose for the elective area of the specialization?
  - You can find information in the module handbook. There you will also find exemplary curricula. You can also make an appointment with your subject advisor.
We are here for you!

Questions or problems?
If you have any questions or problems regarding your studies you are welcome to contact us!
